Register your school or organisation as a Safer Internet Day supporter at saferinternetday.org.uk. Join organisations across the UK sharing what they are doing to celebrate the day.

Invite parents and carers to get involved, whether that is attending an assembly or sending online safety activities home with learners.
Create Safer Internet Day displays in your school or organisation using the educational resources and share these with us using **#SaferInternetDay** – don't forget to tag **@UK_SIC** on Instagram or Twitter!

Reach out to local press to let them know how you are celebrating Safer Internet Day.

Customise our Safer Internet Day social media template and share what your learners create. Consider what you can all do to **#playyourpart** in creating a better and more supportive internet. Use the template to consider what others can do too, whether that is social media and gaming companies, government, teachers or classmates. Use the template to explore how we can all work together to create a better internet by challenging ourselves, those around us, and the apps we interact with online.

Fill the template with ideas about how you can **#playyourpart** to create a kind and supportive internet. This could be:

- Things you can say to support someone online.
- Words or questions you can use in an online game to ensure everyone is included.
- Illustrations of what a better, more inclusive and respectful internet could look like.
- Pledges of what you will do to help create a more respectful internet, such as, "I will be respectful when talking to others online in games" or "I will support my friends if something upsets them."

You can also fill in the **#playyourpart** template in any way you like!

Take a photo of the decorated templates (with learners and educators too!) and share on your organisation's or school's social media accounts with the hashtags **#playyourpart** and **#SaferInternetDay**, as well as tagging **@UK_SIC**. We would also love to see how you have used the template to create a display in your setting!

Important note about sharing on social media:

When sharing your school or organisation's Safer Internet Day activities, including any social media templates decorated by children and young people, please only use your official school or organisation accounts. Do not ask children and young people to share via their personal accounts.

Please ensure that you have the appropriate media consent from parents or carers of any children and young people appearing in any images or videos your school/organisation shares online.

Any media shared online using the **#SaferInternetDay** or **#playyourpart** hashtags and tagged **@UK_SIC** may be reshared by the UK Safer Internet Centre's official social media channels. Only photos sent from official school or organisation accounts will be reshared.

Have any questions?

To learn more about Safer Internet Day, what is happening in the build up to the day, or the work of the UK Safer Internet Centre:

- Visit our website: **www.saferinternetday.org.uk**
